NOTICE TO OUR MEMBERS

Equifax Credit Bureau Cyber Security Incident

Equifax Inc, a provider of consumer credit scores, said on Thursday that personal details of as many as 143 million U.S. consumers were accessed by hackers between mid-May and July, in what could be one of the largest data breaches in the United States. Criminals exploited a U.S. website application vulnerability to gain access to certain files that included names, Social Security numbers and driver's license numbers. Equifax said in its statement that it was working with law enforcement agencies and has hired a cyber security firm to investigate the breach. For more information go to <https://www.equifaxsecurity2017.com/>.

Avestar Credit Union does not submit member information to Equifax. The credit bureau we report to is TransUnion LLC.

Join 222 million people worldwide in celebrating 160 years of credit unions putting the dreams of people before profit.

How do you get from where you are to where you want to be?

Maybe you aren't ready for kids, a big house, and two cars in the driveway—maybe you are. Maybe you will be someday.

Maybe you dream of traveling the world, running marathons in every state, raising horses on a small patch of land in rural Montana, living in a 800-square-foot house you own outright, opening a small coffee shop on Main Street that also sells used records, retiring in your 40s, or zooming to work on a new scooter.

Maybe you just want to pay off all your student loan debt.

The point is, wouldn't it be nice to know that regardless of what you want today, tomorrow, or years from now that you're ready?

As a credit union, we care more about you than chasing huge profits. So if debt is holding you down, or you want to learn how to nail the basics, or you simply want reassurance you're on the right track—come see us.
